

## Isn't it time to use a smarter solution to pay medical providers?

**Medical Payment Exchange (MPX) is the only platform that lets you electronically deliver checks and EOPs at the same time.**

Even in this digital world, 30% of medical payments and 87% of dental payments are still paid by paper checks according to the 2019 CAQH Index.

Why? Because providers only enroll with payers from which they receive the largest number of payments. Many do not like sharing sensitive banking information. Additionally, tracking and reconciling electronic payment transactions with EOPs can be very difficult.

So Deluxe®, along with leading healthcare payments partners, created MPX, the best-in-class digital payment solution that helps you convert paper check disbursements and EOPs into electronic payments, offering you and your providers all the benefits of both at the same time in a single transaction.

Aimed at eliminating the remaining paper checks and EOPs you print and send, this solution complements existing electronic payment technologies and seamlessly integrates into accounting and payment systems.

## How It Works

1. Payer sends check file to MPX network.

3. Provider notified of payment, chooses payment method and accesses EOP.

To learn more about MPX, and to see how it will benefit your organization, contact [info@EFT-Strategies.com](mailto:info@EFT-Strategies.com)

### Benefits for Payers

- » Dramatically reduce print, fulfillment and mailing costs
- » Quick implementation using current check or ANSI 835 files to digitally issue checks and EOPs
- » No disruption to accounting practices; payments reconcile the same way as paper checks
- » 90% of providers very satisfied with MPX experience; top reason - no longer waiting for paper checks

### Benefits for Providers

- » No charge for providers to receive payments using MPX eChecks
- » Reduced revenue cycle days with faster payment delivery
- » The ability to choose the payment method (print & deposit, auto deposit, instant funds)
- » Easy, all-in-one-location access to payment history and EOPs for all payers

## Robust MPX Payments Network Drives User Satisfaction

**180+**  
Active Payers

**160,000**  
Active Service Providers

**90%**  
of providers receiving MPX payments had a positive experience

**70%**  
cited "not waiting for paper checks" as top MPX benefit

### Saving time and money — that's the bottom line

For less than the price of the stamps it takes to mail paper checks, MPX lets you instantly send out printable checks and EOPs, while also delivering flexible payment choices to providers. MPX digitally sends payments via a secure network to tens of thousands of physical provider locations.

### Digitize paper checks without disrupting your payment processes

MPX is the unique solution that lets you migrate from paper checks to digital payments, gain speed and efficiency, and generate significant savings. All without requiring large infrastructure investments or changing your current payment processes.
